Colour Assortment **FILAINE** TOP SELLER

Item No.: 865SORT1

27 of the most popular solid colors of the **FILAINE color card** – colors you need almost all the time- are now available in a handy drawer box.

These miniking cones of 400 m each allow you to run sewing and embroidery tests of ornamental seams immediately.

In addition fabric color matching gets a lot easier with these miniking cones. The color effects of the actual threads are more precise than just comparing shades of the color card thus ensuring the perfect match when choosing colors.

This special make-up is only available for the color assortments.
